dscout

*“Multilingual Connections’ team is quick to respond to requests, communicative during projects, and reliable on deadlines. They were proactive in developing the best workflows for sharing files, and iterating on the process to improve it with each project. The team actively reaches out for input on how they can be doing more for us.”*

**Amy Clarke,**  
Director, Scout Operations

## About Multilingual Connections

Multilingual Connections is a boutique, woman-owned language solutions company based in Evanston, Illinois. Since 2005, we’ve helped universities, market research firms, video production companies, museums, law firms, and more understand, engage and grow their multilingual audiences – local, national or global – in over 75 languages.

## Flexible transcription services to support your research

Your projects and goals are unique, so you need a partner – not just a vendor. Founded by a linguistic anthropologist with experience in academic and corporate research, Multilingual Connections helps you understand the language, culture, and nuance of your multilingual audience.

We offer transcription services for a wide variety of research needs:

**Focus Groups**

**Phone Surveys**

**Street Intercepts**

**In-Depth Interviews**

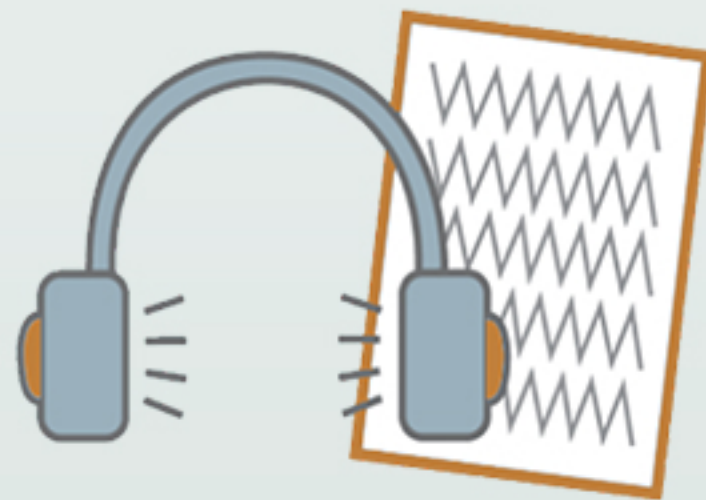

**Mobile Journeys**

**Online Community  
Forums**

### Customized Transcription Solutions

Looking for one trusted transcription partner that can support the research you're conducting across platforms, languages, and regions of the world? Whether you're recording interviews in the field or analyzing customer journeys online, we're here to support your research needs through the following flexible transcription options.

#### Monolingual

Language A → Language A

I have an audio or video file and need a transcript in the same language as the one spoken in the file.

#### Interpretive

Language A → Language B

I have an audio or video file in one language and need a transcript in another language.

#### Double Column

Language A → Language A&B

I have an audio or video file in one language and need a transcript in the same and in another language.
